Roland, can I really learn cybersecurity free, with no experience? 🔐

Yes. Here's the path I'd follow, in order.

4 free steps, plus the catch. Real courses, real labs.

Step 1: the basics 🧱

Cisco Networking Academy: Introduction to Cybersecurity.
Free, self-paced.

Pass the final exam and you get a **free Credly badge.**

Step 2: how attacks work 🛡️

Fortinet NSE 1 and NSE 2: free self-paced courses, **each ends with an online exam.**

Add **IBM's Cybersecurity Fundamentals** for a second free badge.

Step 3: get your hands dirty 💻

TryHackMe free rooms: practice in a browser, no setup.

OverTheWire Bandit: free puzzles that teach you the **Linux command line.**

Step 4: web security 🌐

PortSwigger Web Security Academy: free lessons and labs on how websites get hacked.

It's made by the company behind **Burp Suite**, a tool pros use daily.

What about Google's certificate?

Free to **audit** on Coursera. The certificate costs **$49 a month.**

And ISC2's free CC program closed to new sign-ups in May 2026.
