Roland, wait. WhatsApp can reply by itself now? 👀

Yes. It's called **Meta Business Agent**, inside the **WhatsApp Business app.**

It answers questions, recommends products, books appointments, and hands tough chats back to you.

How to turn it on:

1️⃣ Open WhatsApp Business → **Tools**
2️⃣ Tap **Meta Business Agent**
3️⃣ Link your account and confirm

4️⃣ Let it learn from your past chats. Add your **catalog or website.**

5️⃣ **Test it from another number** before you switch it on.

Ask it the questions your customers ask. Fix the answers you don't like.

Then activate it. ✅

Is it free?

It launched **free**. Meta says paid tiers will come through **WhatsApp Business Premium.**

It's rolling out gradually, so it may not show on your account yet.

Any catch?

It only **replies**. No broadcasts, no follow-ups.

While it's on, broadcast lists, disappearing messages and message editing **are switched off.**
